## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### ***Specification***

Please **substitute title** for "Resin Molded Semiconductor Device on a Lead Frame and Method of Manufacturing the Same"

#### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: There is prior art regarding encapsulated semiconductor devices on a lead frame, said lead frame comprising leads. See, for example, Morihira (JP 02201946). Morihira teaches a resin molded semiconductor device comprising a chip 1 mounted on a die pad portion 2 of a lead frame; wires 3 connecting the terminals to inner lead portions of the lead frame, a sealing resin 8 which seals an outer peripheral region of the chip, said region including a wire region of the upper face of the chip, and a lower region of said die pad portion; and outer lead portions arranged in a bottom face region of said sealing resin, wherein said die pad portion is located higher than the inner lead portions.

However, the Application as amended specifically recites in claims 1,2,4-7,11,13-16,18-20,22,23,25,26,28,29,and 31-36 a resin molded semiconductor device with either

a lead frame located at a position higher than the inner lead portions and/or the specific shape of the inner lead portions. These in combination with all other structures, such as wires, semiconductor chip, resin, outer lead portions; specifically their specific disposition with respect to one another make the above device claims allowable over the prior art of record.

Method claims 8-10,21,24,27,and 30 are allowable for reciting the method of manufacturing the above allowable device.

The prior art of record fails to, either alone or in combination, anticipate the above specific device and/or the method of manufacturing such. Hence the Notice of Allowability found herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
